## **BASIL ANISE** ***Ocimum Basilicum***

- Basil Anise originates from Persia.
- It is an annual.
- Flavour and aroma is liquorice.
- Grows to reach 45cm in height
- Bushy plant.
- Leaves are ovate, glossy, bright green and sometimes purple.
- Light pink flowers on spikes.
- Flowers grown on spikes should be removed as they take too much energy away from the plant.
- Sow in spring.
- Require full sun.
- Water regularly.

Approximately 650 seeds per gram
