

BORAGE

Borago Officinalis

- Bright Sky blue flowers (can be white and pink) with prominent black stamen tips
- Dark green, oval pointed leaves covered with prickly white hairs
- Grows between 30 – 75cm tall
- Grows in all climates except extreme cold and frosts
- Prefers a sunny location and needs plenty of space
- Sow seed directly into garden
- This plant self sow readily and its spread may need to be controlled
- Keep soil moist at all times
- Pick the leaves as required while they are fresh and young
- The flowers attract bees

Approximately 50 seeds per gram
