ENDIVE GREEN CURLED RUFFEC

Cichorium Endivia

- The leaves are curled and have a sharper flavour than lettuce
- Is easy to grow
- Is frost resistant
- This variety does well in rainy regions but not so well in warmer regions
- Plants grow between 8 – 23cm tall
- Germination is usually between 7 – 14 days
- Requires partial shade or full sun
- Requires a fertile and well drained soil
- When watering endive make sure you water the side of the plant rather than watering directly onto the leaves

Approximately 750 seeds per gram
