HELICHRYSUM BRACTEATUM MONSTROSUM

Paper Daisy

Helichrysum Braceteatum Monstrosum is also known as paper daisy or strawflower.

Paper Daisy is a popular dried or everlasting flower that is used in crafts.

Paper Daisy isn't bothered by hot and dry summers. Its blooms late in the year, so it is best sown early indoors in short summer areas.

Pick Paper Daisy before they are fully opened.

This variety will grow to reach 100 cm.

Sow indoors six weeks before the last frost, or sow outdoors after the last frost. Sow on the surface, pressing seeds into the soil.

Requires full sunlight and is easy to grow.

Colours in this mix are: bright rose, copper red, purple red, golden yellow, lemon yellow, salmon rose, scarlet, silvery rose, orange and white.
