ROCKET

Eruca

Salad – This variety grows between 60cm – 1m high. It has small creamy flowers that appear in late spring and early summer. Rocket Salad has a peppery flavour to it which is suitable to mix with other salad leaves. Sow the seeds in rich, moist soil in a lightly shaded area. Sow thinly every two weeks in rows 30cm apart. Grow quickly for tender leaves which are ready to pick within 6 – 8 weeks. Harvest leaves as required.

Aprox. 550 seeds per gram
