## **SNOW PEA YUKAMO GIANT** *Pisum Sativum*

- Tall climbing snow pea
- Plant seeds every 3 to 4 weeks for continuous harvest
- Plant seeds outdoor
- Plant 2 – 2.5m apart
- Pods are 13cm X 28cm
- They are large and flat peas
- Pick snow peas regularly to promote growth of new pods.
- Peas should be harvested when pods are flat and the seeds are underdeveloped.
- This variety has a purple flower

Approximately 5 seeds per gram
