

*Family owned and operated since 1976*

## **TATSOI F1 DEEP PURPLE** *Brassica*

- Great Variety for baby leaf production
- 21 days for baby leaf, 45 days mature
- Unique and easy to grow
- This variety has an attractive purple/magenta colouring
- The leaves are bright and glossy
- Mild taste for salads and stir-fries
- Suitable for late spring to autumn sowing
- Spring sowings should be made after last frost date to eliminate risk of premature bolting

Approximately 500 seeds per gram
